*Dear Mr Sewell and Ms Schwencke*

Thank you for your letter of 29 May. I am sorry to read about the struggle you have faced in setting up your training programme.

I can understand your sense of frustration when you are working so hard without sufficient financial return and, having had a brief look at your website, about the history of your dispute with WLTEC.

I am sorry that this leaves you feeling that it is not worth submitting your views about planning and development to the Borough Council, when your argument is clearly not with them. I maintain strongly that it is important for local people to make their views clear and that local decisions should be made locally.

Please do keep in touch and let me know if there is anything I can do to help.

*Do hope you are well!*

*Best wishes*

Anne Milton  
Member of Parliament  
for Guildford
